Nothing ever sent "on inspection approval"-all deals are final!

THIS WAY PLEASE.....

This is the largest mailing I have ever sent out. It is costing me quite a bit of money in time, work and postage alone. Many of you will be getting my list and hearing from me for the first time. It will be the last if you don't let me hear from you so I know you are a serious collector. A collector like myself can't make a profit from this type hobby. It is impossible! So, believe me...this is only a hobby of love & devotion with me in my spare time, I have other work that takes up the rest of my time. If I do not hear from you, I will know you aren't interested in these hobbies and believe me, I will mark your name off furthering mailing lists. I will not send mailings out unless I know they are sincerely interested in receiving them. If you have anything you might think I am interested in, advise, If I have an item you want for your collection, maybe we can get together on even-trade. I would rather trade than sell anytime. If I sell, I take the money and buy something outright dollar for dollar that I have been looking for to put in my collection. I have many items however, that I will never list or sell. I want many other items though, will pay cash or trade! I am sure you understand that I value each of you, but must know if you are a serious collector. At least send me a postcard telling me about the weather you've been having there, & how you liked this issue. Then I will take out that big mailing list and mark "active" beside your name and it will be there when my next mailing goes out in a few weeks, a lot bigger and better. PLEASE...telegraph, phone or write, JUST LET ME KNOW YOU ARE THERE! That's all I ask in return for this copy! TV GRABS OFF "NEW MOVIES" or.. "woe to the theatre man!" And how the TV season has started this fall-winter term! The usual Saturday nite, & this year Wednesday, instead of Monday while ABC has Sunday nites, top movies caliber post '50 releases you will have for free..VIKINGS with Kirk Douglas, Tony Curtis, SOME LIKE IT HOT, Curtis, Jack Lemmon and Marilyn Monroe, MISFITS, Gable & Monroe's final movie before her death, JUDGEMENT AT NURNBERG all star cast, FT. BRAVO with Wm. Holden, THE SWAN with Alec Guinness & Grace Kelly, HOUDINI, T. Curtis & Janet Leigh, and ELEPHANT WALK with Liz Taylor & already CATCH A THIEF Cary Grant & Grace Kelly, etc. Almost all in color. I have a color TV set. I can say this, the Disney hour, & weekly Football games in color besides the above movies will pay for my set this fall in entertainment, in color alone! No wonder the theatres are going broke. The PENN, long time big theatre in Pittsburgh, the second large house to close recently! The drive-ins hurt, I never liked them, too carnival! So, you may say, the TV fan won, the theatre man lost again..& TV came in a good first! Even without color-TV sets, you still win with such great movies available. MAYBE THE REASON for no profits at the boxoffice is the price for the admission ticket? If a man takes his wife and his 2 children to any theatre for an evening movie treat he will expect to pay over \$3.00, without popcorn! I have at one time been in the newspaper, theatre, TV, Radio, biz and worked for Warner Brothers as a film booker. I expect to write a book one of these days about what I have seen in each media & how the insides looks to the outsider, how business deals are made, you wouldn't believe it. No wonder show-biz is so unsteady and mixed-up. It isn't the business, I am sad to say, it is the people. "You must dislike people" the old chestnut to being famous, as they say. I do therefore have come to the point of sitting back, out of it all..... collecting my memories in items here and there, adding to my library and one of these days compile a big book on the media, what I have seen. Understand, not as a know-it-all. Hardly that. But a fellow who was there in the thick of it in each media. I am a bit rusty since being a daily newspaper entertainment-page columnist, however, the memories good and bad will always be imbedded in my noggin. That's the kind of fellow I am, a real "dyed-in-wool" hobby-collector! What about you????

To John Cooper

Dear John:

Your magazine arrived.

Congratulations! You have acted exactly as I predicted you would.

I know I am a fool; there is no need proving it. But thank you anyhow and congratulations!

Since I have no desire to be in your debt for the slightest favor, my check for \$2. should cover the 4 issues of HH which you have sent.

I wish you great success in obtaining much information and material for yourself through my efforts--since by omitting my address you can now take complete advantage of anything that accrues to you from my article.

However, it is not that simple. You are using my article for your own gain and this is contrary to the purpose for which it was written and given you, the purpose being to publicize the work of Bill Hedges for the Broadcast Pioneers, and my work in association with them. Therefore, I must initiate these steps:

1. To lay the entire matter, along with your correspondence which shows clear evidence of deceipts, before Bill Hedges.
2. To make certain that those who count hear of your deceit.
3. To make certain you do not make a fool of anyone who is a friend of mine.

Please desist from using any information as found on my outlines for your publication without my permission.

I must thank you for teaching me again a valuable lesson about certain species of collectors-- a lesson I will not forget. If space permits I believe I will treat of these people in our history.
